Build Process

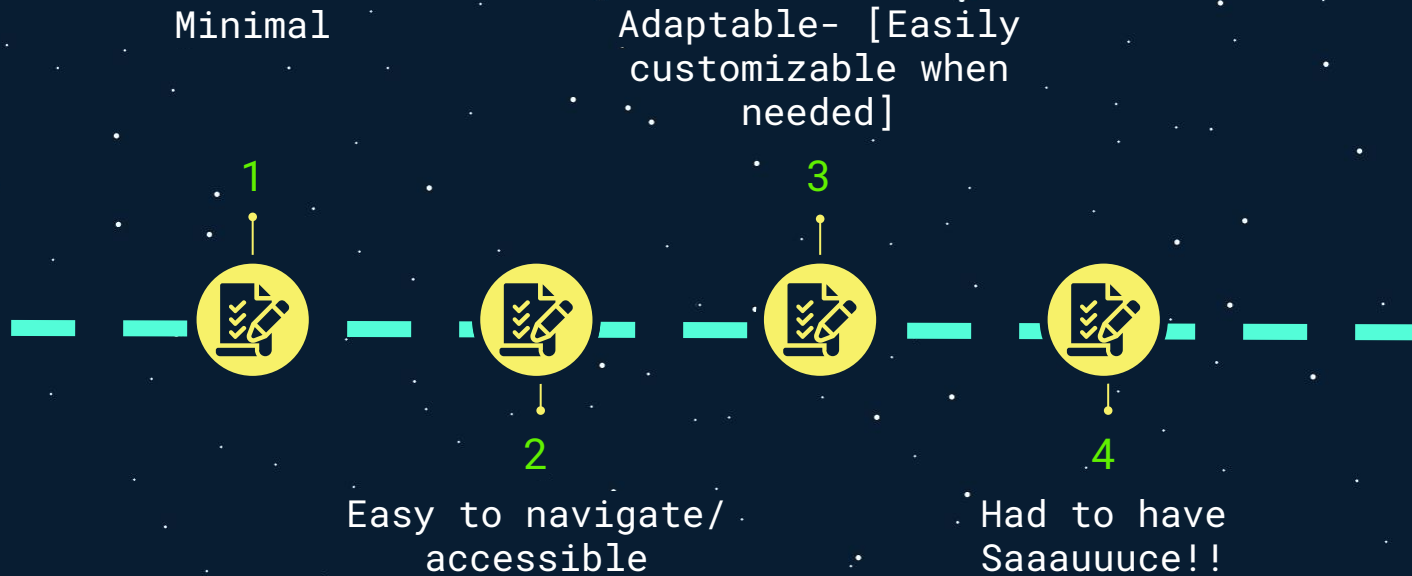

01

PURPOSE/ OBJECTIVE

I had few simple goals
(along with the criteria
requirements) for my
website!

Purpose/ Objectives

INSPIRATION/DESIGN PROCESS

I got inspiration from two of my favourite brands! Apple
and Prada!

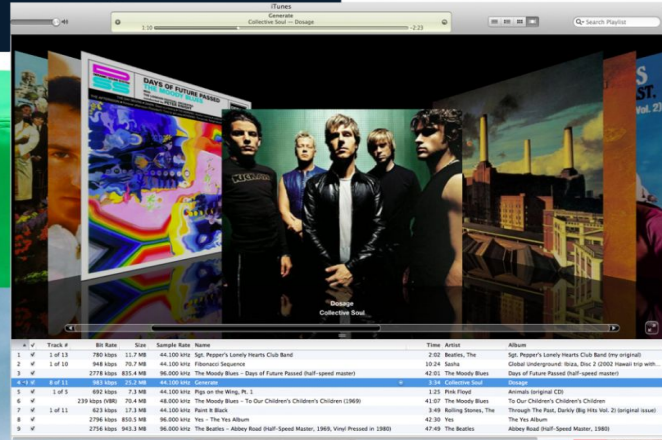

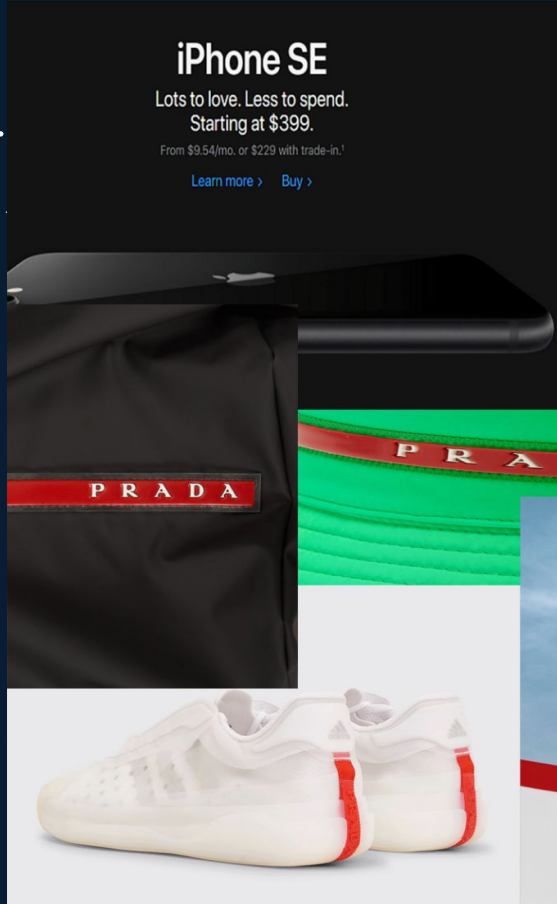

Both companies create timeless products that are both
simple & elegant in their designs.

This was my attempt at trying to emulate something
similar!

```
font-family: 'Franklin Gothic Medium', 'Arial Narrow', Arial, sans-serif, sans-serif;
```

RECURRING COMPONENTS

Design/ Components

Fav-Icon- acts as a logo with my Initial. Appears on the Tab-bar of every page!

Navigation Bar- to appear on all pages. Links all the pages together

Red Stripe Styling- Will style a heading or subheading on every page. Inspo from Prada.

Footer- to appear on all pages. To contain Icons with Links to socials/ Copyright notice

RECURRING COMPONENTS

Design/ Components

Navigation Bar Design

- Responsive

Footer Design-

- Links to LinkedIn, Github and Socials.
- Letter Head in the footer(With my Full Name)

HOME PAGE

Design/ Components

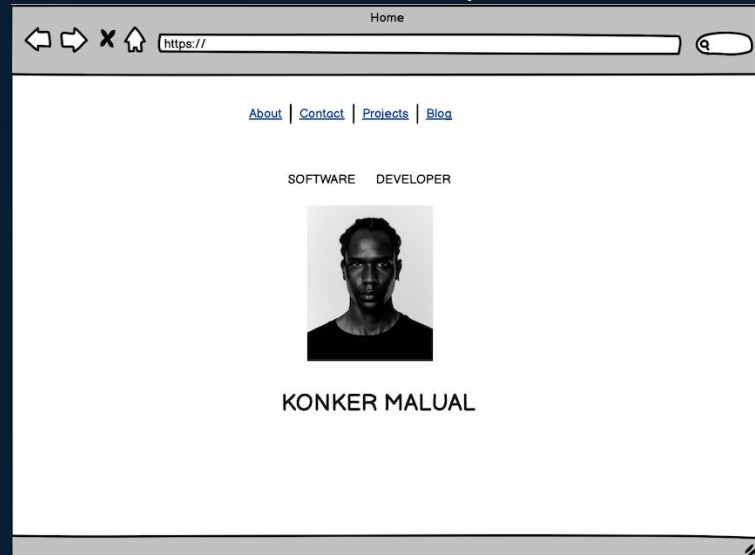

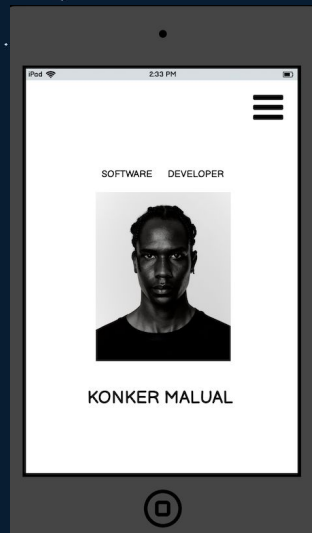

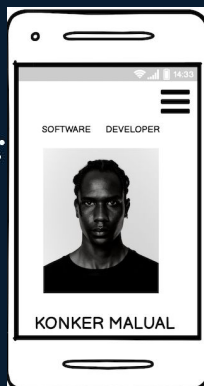

Home Page to Contain the following:

- Responsive Hero Image- (Will also act as a link to the about page)
- Heading - "Konker" (made together with fav-icon image to fill in The letter K).
- Sub-heading- "Dev-Ops" Explaining what i do!

HOME PAGE WIREFRAMES

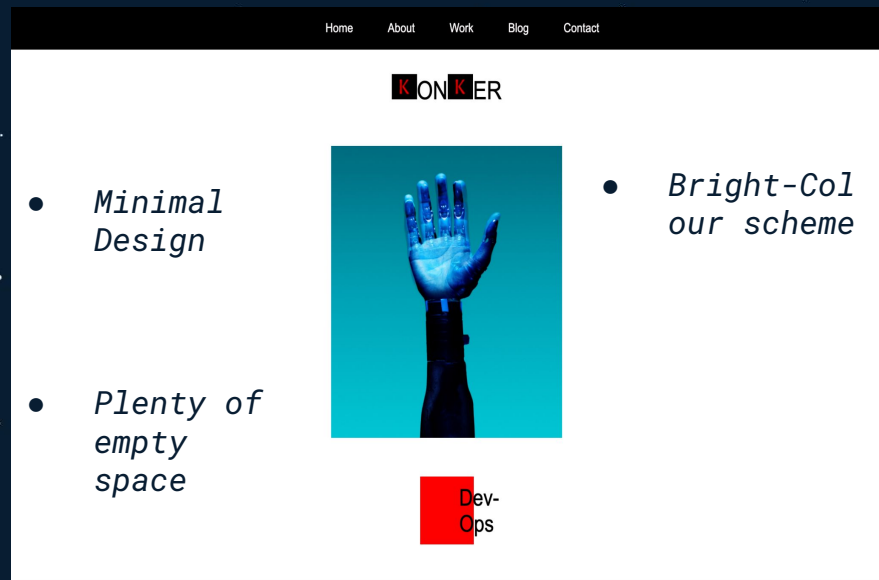

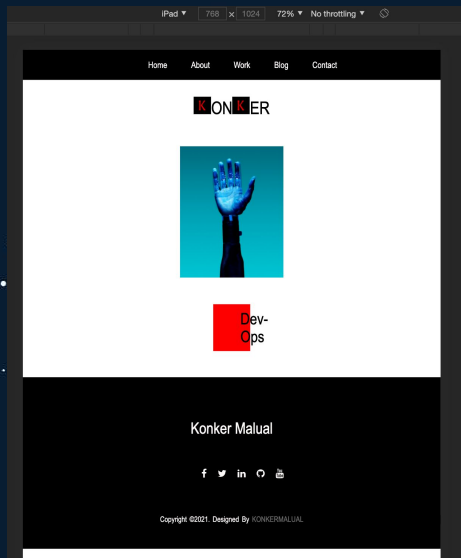

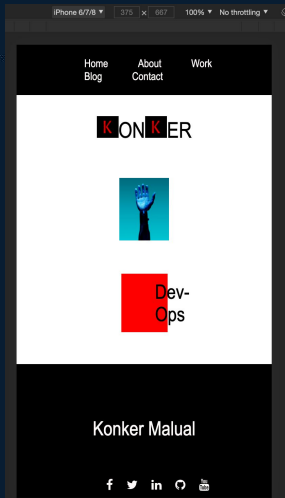

Design/ Components

- Initially wanted to include a Hamburger Nav menu on smaller devices but had to scrap the idea as i would have to use javascript.

HOME PAGE FINAL DESIGN

Design/ Components

- *Minimal Design*

- *Plenty of empty space*

- *Bright-Colour scheme*

User Engagement

- Fully Responsive
- **Red**-Stripe text background-colour is a recurring aesthetic (inspo from prada) throughout the website. It's the sauce.

- Hero image Links to the about page. Also contains Hover Effect

ABOUT PAGE

Design/ Components

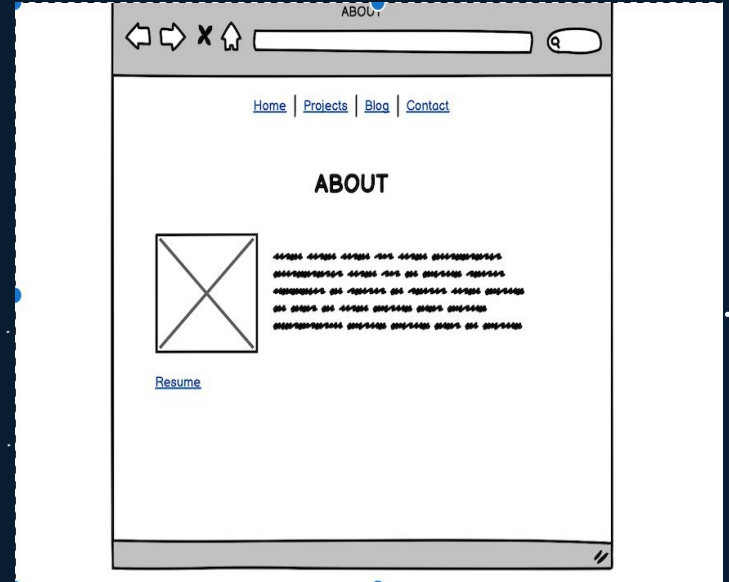

About Page to Contain the following:

- Heading - "About me!"
- Responsive Profile Image
- Paragraph Section - Explaining my Skills and Qualifications
- Sub-heading- "Curriculum Vitae"
- Button element- Links to my resume.

ABOUT PAGE WIREFRAMES

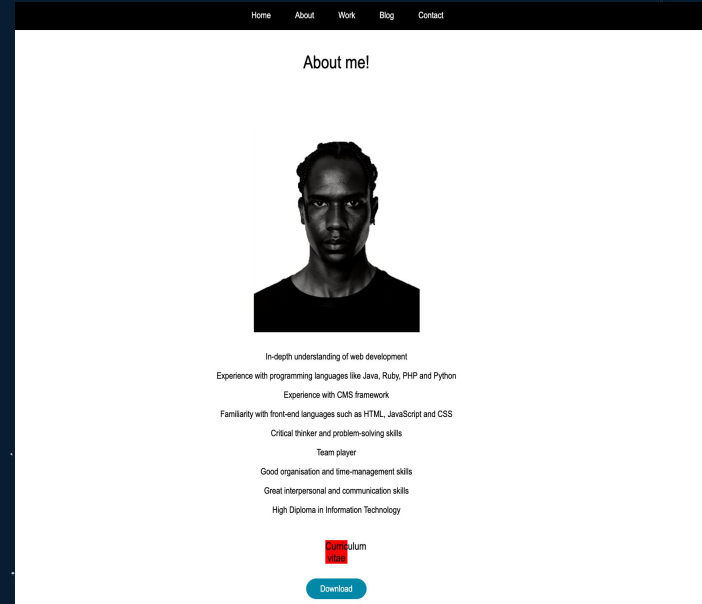

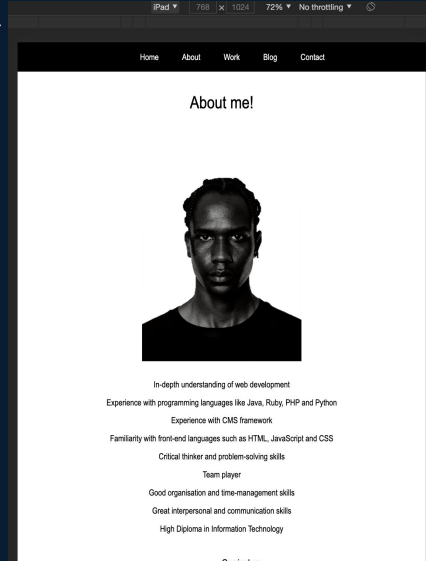

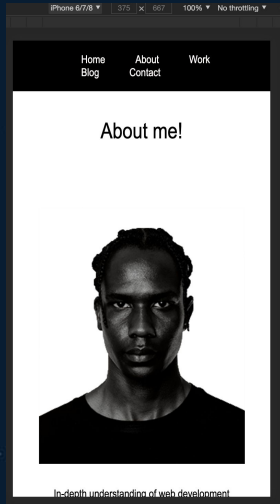

Design/ Components

- Simple design- Staying true to my minimal Objective

ABOUT PAGE FINAL DESIGN

Design/ Components

User Engagement

- Responsive Layout. Text/navbar/Footer/img changes size depending on device.

- Downloadable Resume at the bottom
- Minimal/ plenty of empty Space- focuses attention on content

WORK PAGE

Design/ Components

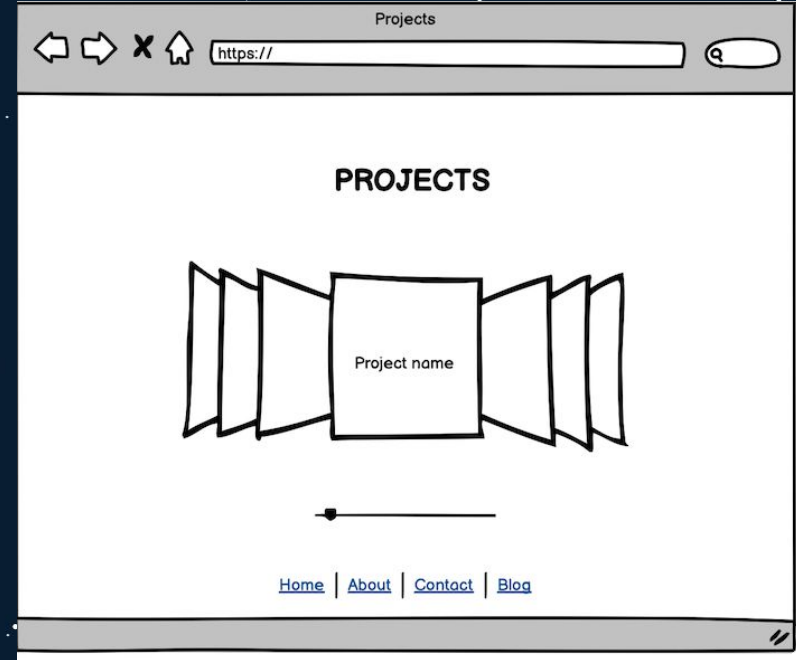

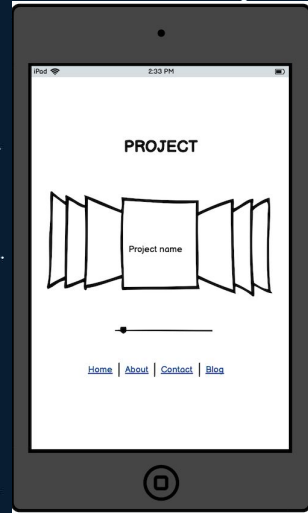

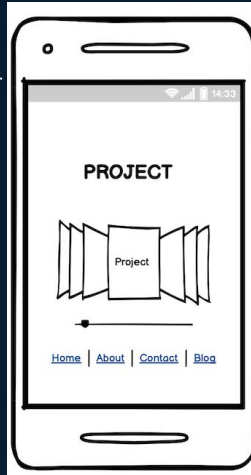

Work Page to Contain the following:

- Heading - "Projects!" with the Prada styling.
- Responsive Carousel Feature
- A way to interact with Carousel Feature.
- Button Elements that will link to future projects

WORK PAGE WIREFRAMES

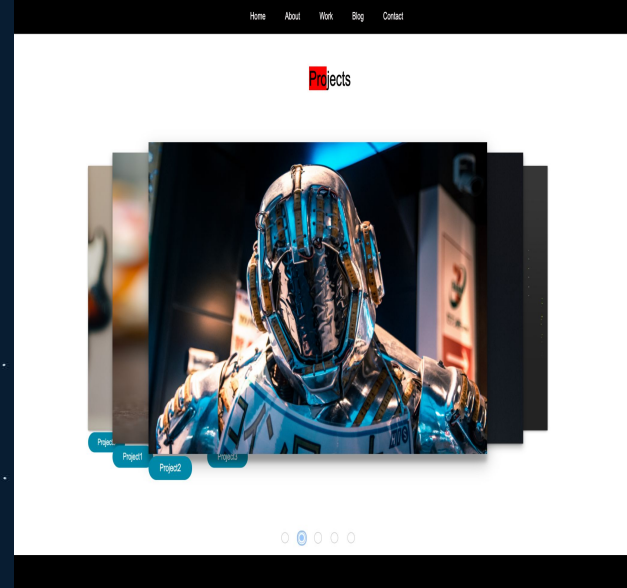

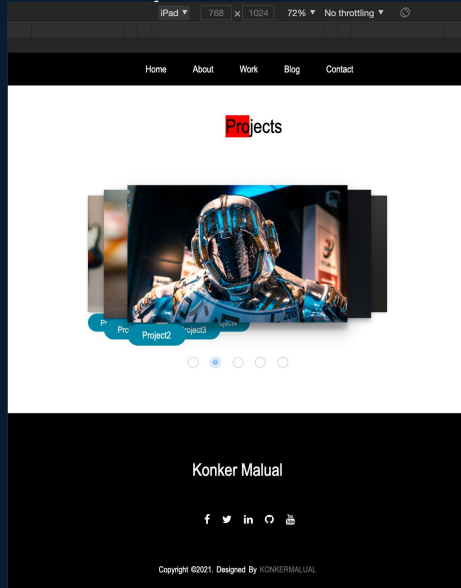

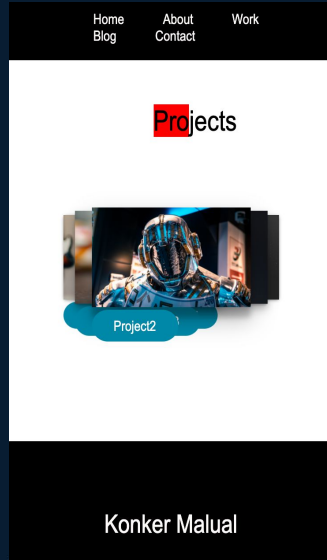

Design/ Components

- Carousel Feature in the middle of the page!
- Each Image will Represent a Project and include a link to said project.
- Under the carousel will be a slider to interact with it

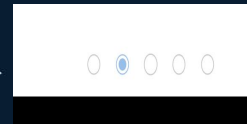

WORK PAGE FINAL DESIGN

Design/ Components

User Engagement

- Responsive Layout. All elements shrink and resize depending on screen.
- Slider appears at the bottom of Carousel on wider screen but disappears on smaller screens.

- Carousel can be engaged with or without slider by clicking on the next image (behind front image).
- Links on each slide. Mappable

BLOG PAGE

Design/ Components

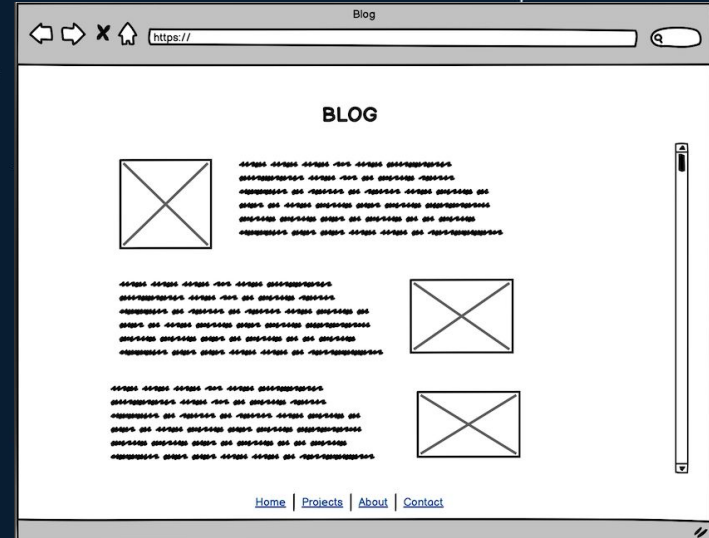

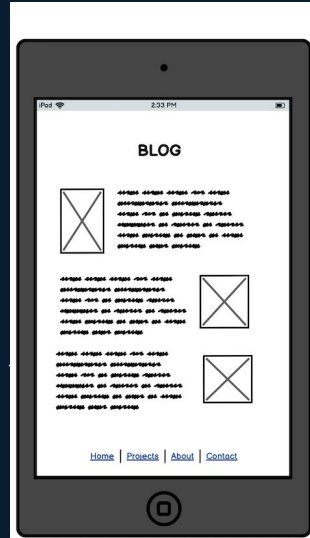

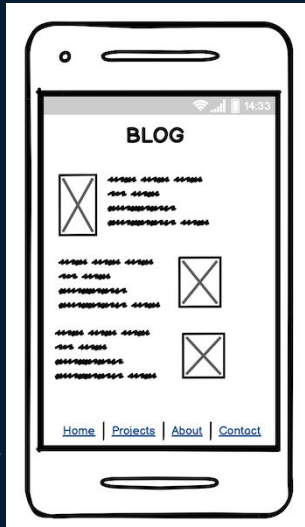

Blog Page to Contain the following:

- Heading - "Blog!" with the Prada styling.
- 5 Blog Post (With images, text, Title, date published).
- About section - with text and an img linking to about page!
- 2 column page set up on wider devices, Single column on smaller devices.

BLOG PAGE WIREFRAMES

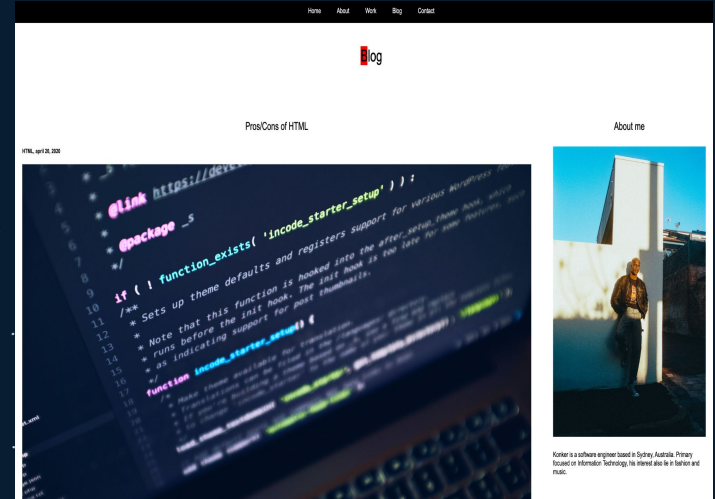

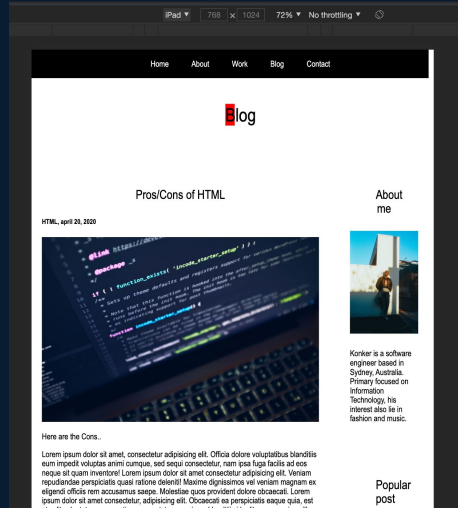

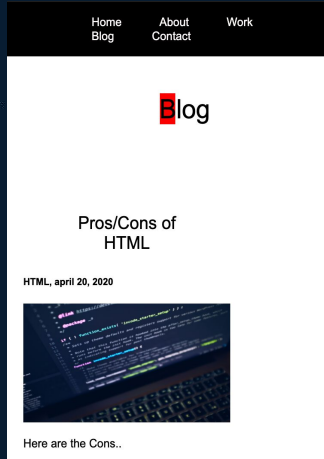

Design/ Components

- Original Design
- Simple Single Layout on all devices.

BLOG PAGE FINAL DESIGN

Design/ Components

User Engagement

- Responsive Layout. 2 column layout on wider screens. Single Layout on smaller screens.
- Page is Scrollable

- About me section on the right links to about me page

CONTACT PAGE

Design/ Components

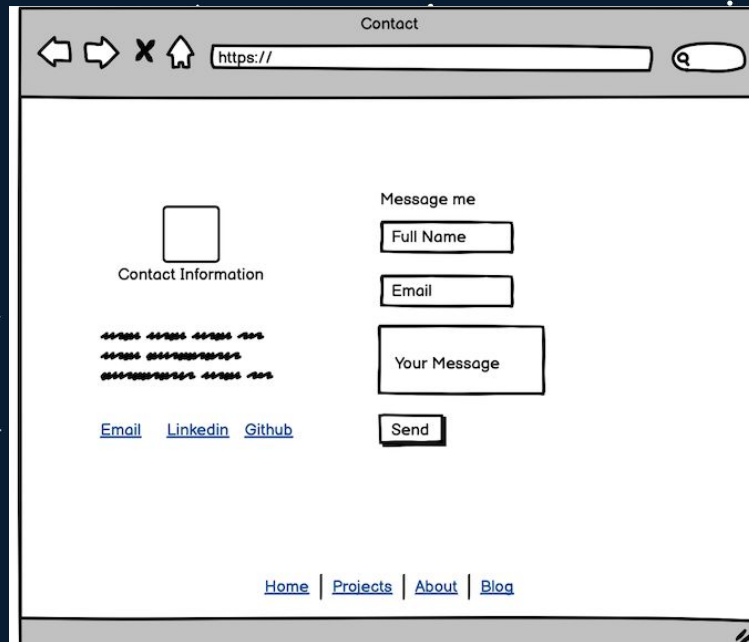

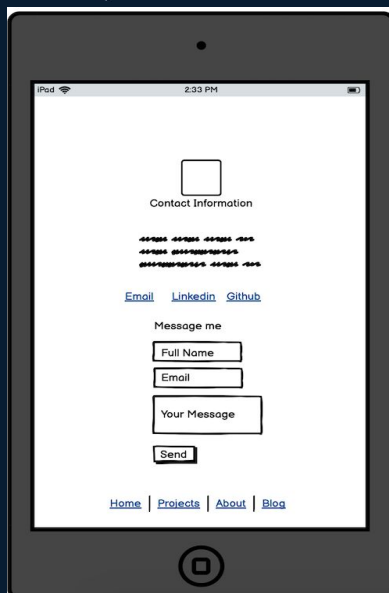

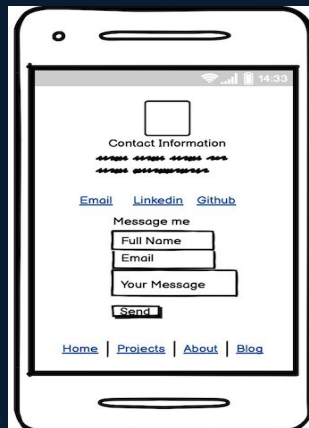

Contact Page to Contain the following:

- Heading - "Contact-Information!" with the Prada styling.
- Paragraph section- Explaining my contact information.
- Email/ Phone number details Section
- Form Element

CONTACT PAGE WIREFRAMES

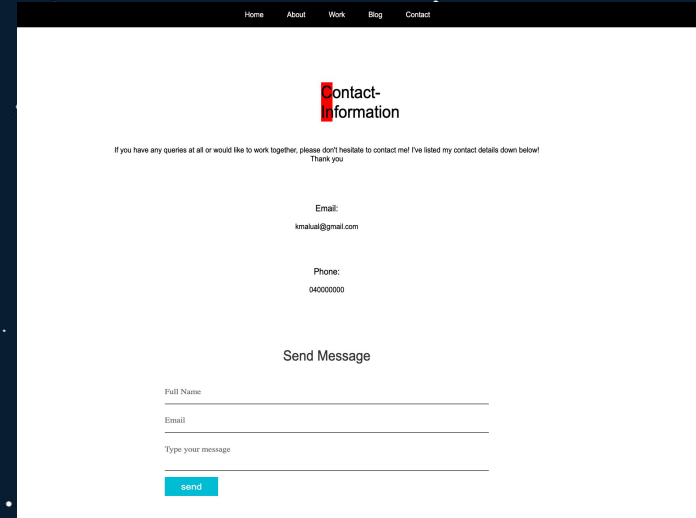

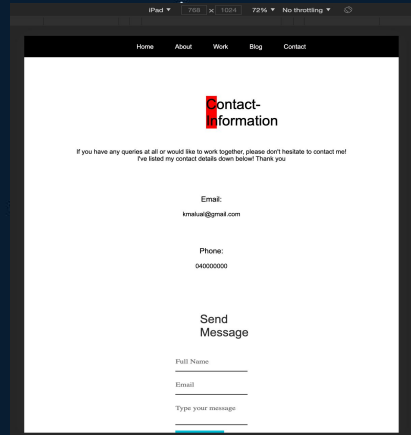

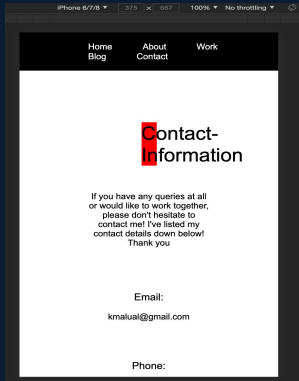

Design/ Components

- Plenty white space
- Original design includes links to socials. I've included those links on my footer

CONTACT PAGE FINAL DESIGN

Design/ Components

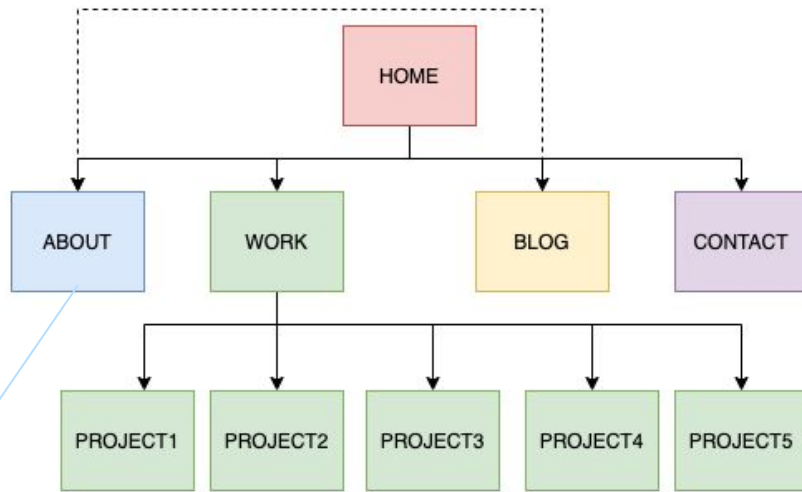

User Engagement

- Responsive Layout. Form and content changes size with screen.
- Page is Scrollable

- Email and Phone Information Displayed.

SITE MAP

resu
me.p
df

- Parent Page- Home/Index
- Child Pages- About, Work, Blog, Contact
 - Work Page Include links to future project pages that i will create.
- Blog Page links to About page.
- Downloadable resume included in about me page.

03

DEVELOPMENT/ BUILD PROCESS

APPROACHING THE TASK

Development/ Build Process

01

Weeks of Procrastination

...Task seemed impossible for many weeks but became more feasible as i understood more about CSS & HTML

02

Planning

Using wireframes and mood board to visualize the website before coding it up!

03

VSC/Github

Utilizing visual studio code to write up the website and Github to store and deploy it!

CHALLENGES

Development/
Build Process

01

**CSS Grid/
Responsive
Design**

Practiced these
concepts for hours.

02

**Carousel
Feature on my
Projects page**

It was a nightmare
figuring out how to
do this using only
HTML&CSS.

03

Flex-box

Struggled getting
my head around
flexbox in the
beginning.

FAVOURITE PARTS

Development/
Build Process

01

Having my own
website/
Building it from
scratch.

02

Carousel
Feature on my
Projects page

Everything clicked
when i made this
feature work, and the
rest of the pages were
easy for me.
